Career Objective

Passionate and self-driven aspiring programmer with a strong interest in C#, C, MySQL, web development, video editing, and data entry. Eager to contribute to real-world projects and grow professionally through hands-on experience. I am committed to continuous learning and development, with a keen eye for detail and creativity in both programming and media.

Education**Kiambu National Polytechnic** – Diploma in Programming

November 2024 – Present

Currently pursuing a Diploma in Programming, where I am learning the fundamentals and advanced concepts in software development, databases, and web technologies. I am building practical skills by working on personal and academic projects.

High School Education

2019 – 2023

Completed secondary education with a strong foundation in computer studies and technology.

Primary Education

Completed in 2019

Skills

- Programming: C#, C
 - Web Development: HTML, CSS, JavaScript
 - Databases: MySQL
 - Video Editing: Adobe Premiere Pro (basic editing and effects)
 - Data Entry: Microsoft Word, Excel, Google Docs, Google Sheets
 - Soft Skills: Self-learning, Adaptability, Attention to Detail, Communication
-

Work Experience

Currently seeking my first work opportunity. I am confident that through hands-on work, I will gain valuable experience and continue growing professionally. I am proactive, eager to learn, and ready to contribute.

Projects and Achievements

- **User Account System** – Built a basic user account interface where users can register and perform transactions using C# Windows Forms.
 - **Dance Video Edits** – Edited personal dance videos, showcasing my creativity and technical skills in video editing.
 - **School Database** – Created a school database using MySQL to manage students, classes, and academic records.
 - **Data Entry Projects** – Managed and entered data using Microsoft Office tools and Google Workspace during school-based activities and personal practice.
-

Certifications and Training

Self-taught in multiple areas including data entry, video editing, and database design. I began learning programming in high school during my free time, focusing on logic building and coding fundamentals. Since then, I have continued to expand my knowledge independently while studying at Kiambu National Polytechnic.
